INCOMETRIC FUND

Fund Information

The Fund is organised in and under the laws of the Grand-Duchy of Luxembourg as a mutual investment fund with separate Sub-Fund(s) constituting each a separate portfolio of assets and liabilities.

The Fund is registered pursuant to the Part I of the Law of 17 December 2010 relating to undertakings for collective investment.

In accordance with the Management Regulations, the board of directors of the Management Company may issue Units in each Sub-Fund. A separate pool of assets is maintained for each Sub-Fund and is invested in accordance with the investment objectives applicable to the relevant Sub-Fund. As a result, the Fund is an “umbrella fund” enabling investors to choose between one or more investment objectives by investing in one or more Sub-Funds. Investors may choose which Sub-Fund(s) may be most appropriate for their specific risk and return expectations as well as their diversification needs.

Each Sub-Fund is treated as a separate entity and operates independently, each portfolio of assets being invested for the exclusive benefit of this Sub-Fund. A purchase of Units relating to one particular Sub-Fund does not give the holder of such Units any rights with respect to any other Sub-Fund.

The net proceeds from the subscription to each Sub-Fund are invested in the specific portfolio of assets constituting that Sub-Fund.

With regard to third parties, each Sub-Fund will be exclusively responsible for all liabilities attributable to it.

The board of directors of the Management Company may, at any time, create additional Sub-Funds.

Furthermore, in respect of each Sub-Fund, the board of directors of the Management Company may decide to issue one or more Classes of Units, each Class having e.g. a specific sales and redemption charge structure, a specific management fee structure, different distribution, Unit holders servicing or other fees, different types of targeted investors, different currencies and/or such other features as may be determined by the board of directors of the Management Company from time to time.

The currency in which the Classes of Units are denominated may differ from the Reference Currency of the relevant Sub-Fund. The Management Company may, at the expense of the relevant Class of Units, use instruments such as forward currency contracts to hedge the exposure of the investments denominated in other currencies than the currency in which the relevant Class of Units is denominated.

The Classes of Units may be sub-divided into two Categories: accumulation of income and distribution of income.

The amounts invested in the various Classes of Units of each Sub-Fund are themselves invested in a common underlying portfolio of investments. The Management Company may decide to create further Classes of Units with different characteristics.

Units of different Classes within each Sub-Fund may be issued, redeemed and converted at prices computed on the basis of the Net Asset Value per Unit, within the relevant Sub-Fund, as defined in the Management Regulations.

The Fund is managed in the interest of its unitholders by the Management Company, a public limited company (“société anonyme”) incorporated under the laws of Luxembourg and having its registered office in Luxembourg.

The assets of the Fund are separate from those of the Management Company and from those of other funds managed by the Management Company.

The Management Company manages the assets of the Fund in accordance with the Management Regulations. The Management Regulations are deposited with the Registre de Commerce et des Sociétés Luxembourg, where they may be inspected and copies may be obtained. A notice advising of the publication and deposit of the Management Regulations with the registry was published in the Mémorial, Recueil des Sociétés et Associations of Luxembourg.

INCOMETRIC FUND

Investment Management Report as at December 31, 2022

Market Overview

2022 started out with worries about inflation, interest rates hikes, supply chain disruptions and concerns over the COVID-19 omicron variant. While the focus of the first two months of the year was on how high interest rate increases would be, geopolitical tensions between Russia and Ukraine escalated dramatically.

Despite repeated warnings from the US administration, few investors expected the full scale invasion of Ukraine by Russia. This event was the single biggest event of 2022, taking equity markets down while energy prices and inflation up due to supply chains disruptions and sanctions on Russia. The USA and European countries implemented harsh sanctions on Russia, rolling out sanction packages throughout the year but these had limited effects as energy products were mostly left out due to Europe's dependency on Russian energy products. Inflation increased sharply worldwide as both Russia and Ukraine are major producers and exporters of many commodities.

While the USA focused on fighting inflation, it was less directly impacted by the war. As a result, the US Dollar appreciated against other major currencies, while the Euro fell and even went below parity as the European Central Bank raised rates later. The US Federal Reserve raised rates aggressively throughout the year, only slowing down in the last months as concerns over a recession increased.

Europe was severely impacted by the Russian invasion of Ukraine as it faced an energy crisis impacting businesses and households, supply chain and industrial disruptions. The UK was particularly hit by the energy crisis and resulting inflation, triggering the largest social movements in decades. The resignation of Prime Minister Boris Johnson was followed by the fiasco of PM Liz Truss' mini-budget, which severely hit the pound and financial markets. Finally, the impact of Brexit started to show as well, though obscured by the COVID-19 crisis and Ukraine Russia war.

Asian countries also suffered from the US Dollar appreciation and local inflation. In addition, Chinese COVID-19 lock downs disrupted supply chains until 3 years of complicated restrictions led many Chinese citizens to take the street. After sticking to its 'Zero COVID Policy' for years, the Chinese government eventually yielded, lifting restrictions abruptly which led to an explosion of COVID-19 cases in the country.

The Fixed Income market was initially impacted by the Ukraine war, with a flight to safer names. The main concern remained inflation and yield rose as prices declined. Corporate bonds performed worse than government ones, especially High Yield ones. Emerging markets declined also sharply as the US Dollar appreciated.

INCOMETRIC FUND - Abando Total Return

During the year 2022, the Sub-Fund remained heavily invested in equities. The Sub-Fund's investment strategy has been consistent with previous years, and it continued with a similar asset allocation and geographical distribution. The currency distribution remains similar to last year's, Euro representing roughly a 55% of its investments, followed by US dollars (just shy of 20%) and Swiss Francs (almost 15%).

Regarding sectorial distribution, the Sub-Fund kept its diversified characteristics, with banks, consumer staples, financial services, and industrials as the top sectors. The portfolio remained invested in the same stocks.

Overall, the Sub-Fund had low portfolio rotation and was highly diversified, with low exposure to fixed income securities and treasury. This strategy has been maintained in recent years, and it aim to continue with it, knowing that certain years of negative performance are well outperformed by its diversified portfolio and high exposure.

In 2022, the performance of the Sub-Fund was:

- LU0868350967 - Class A EUR : -7.46%

INCOMETRIC FUND

Investment Management Report as at December 31, 2022 (continued)

INCOMETRIC FUND - ACCI DMP - Diversified

After an exceptional 2021, the year 2022 will be remembered as one of the most tumultuous in history. While in 2021 any action on monetary policy was delayed, a higher and longer than expected inflation forced major Central Banks to intervene rapidly and forcefully, creating a synchronized monetary policy tightening across the world.

Inflation from supply/demand imbalances due to excess liquidity and supply chain disruptions from the COVID-19 pandemic, was exacerbated by the Russian invasion of Ukraine and Chinese “Zero-COVID” policy.

The end of quantitative easing and a new era of positive interest rates have affected assets valuation, and the correlation between equities and bonds has been distorted. Volatility will still be present in 2023, as well as recession fear, high inflation, China reopening effect and the development of geopolitical conflicts, among other factors causing volatility to rise.

During the year 2022, the Sub-Fund changed its allocation between four different portfolios (the following figures include direct and indirect exposures): 60% equity-40% fixed income, 45% equity-55% fixed income, 30% equity-70% fixed income and 15% equity-85% fixed income, depending of the positioning of the Sub-Fund’s proprietary risk indicator. The Sub-Fund was very active during the year, adjusting its portfolio as described. It ended the year with about 30% equity and 70% fixed income. The Sub-Fund ended the year mostly exposed to US assets, followed by Japan and Europe.

In 2022, the performance of the Sub-Fund was:

- LU1913290232 - Class A1 USD : -23.73%
- LU1913290315 - Class A2 USD : -24.33%

- LU2200252687 - Class C1 - USD: -32.37%

INCOMETRIC FUND - Albatros Acciones

The Sub-Fund started the year 2022 with an equity exposure of around 85%. The Sub-Fund remained heavily invested in equities throughout the year, mainly to the energy, financial and retail sectors which helped it achieve good performance for the year. The Sub-Fund was also heavily invested in USD denominated assets (approximately 50% of its assets) which were unhedged and provided an additional boost to the performance of the Sub-Fund.

In 2022, the performance of the Sub-Fund was:

- LU1591640047 - Class A EUR : 4.90%

INCOMETRIC FUND - Araucaria Fund

The Sub-Fund started the year 2022 with an equity exposure of 90%. The Sub-Fund remained heavily invested in equities throughout the year. Some rotation into value style funds was done in order to cushion some the negative impact suffered by growth stocks at the beginning of the year. The Sub-Fund ended the year 2022 with an equity exposure over 92%. Some direct opportunities were added towards the end of the year such as shares of Berkshire Hathaway B, Kering and Alphabet.

In 2022, the performance of the Sub-Fund was:

- LU1542635781 - Class A EUR : -14.82%

INCOMETRIC FUND

Investment Management Report as at December 31, 2022 (continued)

INCOMETRIC FUND - ATHOS (LF) Global Navigator

The Sub-Fund aims to deliver consistent absolute positive returns during a full business cycle. Its strategy attempts to harvest above-average yields in the Fixed Income universe and targets an attractive dividend yield for its equity allocation. The Sub-Fund's core portfolio is often rich in cash and cash-equivalents to supply a cushion during any market downturn and provide necessary liquidity for fresh allocations. The auxiliary use of derivative instruments is often used as a hedge to unfavorable market action.

During the year 2022, the Sub-Fund maintained a balanced portfolio among mainstream asset classes such as bonds and stocks, plus cash. The portfolio weighed towards corporate fixed income securities (as opposed to sovereign debt) relative to its previous years' allocation. More precisely, corporate issues accounted for about 45% of NAV, while government issues averaged around 18%.

Because of market turbulence during this year, the Sub-Fund's global equity exposure was cut down relative to 2021 at around 15%.

As G7 countries' central banks became more hawkish during the second quarter of 2022, the Sub-Fund focused on decreasing duration exposure in sovereigns for the remaining of the calendar year and was opportunistically investing in spread duration exposure as credit spreads provided carry opportunities after the first half of the year.

During the second half of 2022, the Sub-Fund further minimized its duration exposure in Europe, through exchange-listed interest rate derivatives while the European Central Bank turned increasingly aggressive against inflation.

The Sub-Fund slightly increased its exposure in Greek financial Fixed Income securities concentrating on Senior Secured capital structure, as all major local lenders issued debt under the Minimum Requirement for own Funds and Eligible Liabilities (MREL) directive. The Sub-Fund continues to view this sector as significant to its overall portfolio and aims to keep these positions as core to its Fixed Income holdings.

The year 2022 was characterized by above-average volatility; hence the Sub-Fund was active in several dynamic hedging strategies in the equity and Fixed Income space. All products traded for this Sub-Fund were solely transparently-priced and operationally-simple exchange-regulated instruments, and the Sub-Fund was not involved in any Over-The-Counter transactions.

The Sub-Fund held no defaulted or distressed securities throughout the year 2022.

In 2022, the performance of the Sub-Fund was:

- LU1846656038 - Class A EUR : -2.53%

INCOMETRIC FUND - Branosera Global Dynamic

During the year 2022, the portfolio did not record drastic changes and maintained elevated equity levels (around 75%), until August when equity exposure was reduced to about 66% and during the last quarter was kept in a range between 66 and 70%. Fixed income and cash levels were therefore increased at the end of August. The Sub-Fund pivoted towards a value-based strategy in 2022, since it was very growth biased. Other than that, no changes in strategy have been done.

In 2022, the performance of the Sub-Fund was:

- LU1542635948 - Class A EUR : -21.04%

INCOMETRIC FUND

Investment Management Report as at December 31, 2022 (continued)

INCOMETRIC FUND - Cartago Global Balanced

During the year 2022, there was no changes in the global allocation. The Sub-Fund added some European exposure in May 2022 with the purchase of the fund Schroder International Value and also added some alternative exposure with the purchase of the Ruffer Sicav Total Return. In September 2022, the Sub-Fund reduced its positions to raise cash and meet redemptions.

There was no important changes in the Sub-Fund's strategy in 2022. The main investment objective is to achieve midterm capital appreciation with a focus on capital preservation. Some were maintained due to the high diversification and cost efficiency and to accomplish with the principle of risk diversification directly or indirectly through investing worldwide primarily in global equities, investment grade bonds, high yield bonds and money market.

The Sub-Fund is managed following a geographical as well as sectorial diversification, based on a dynamic investing methodology. Its flexible allocation aims to mitigate capital fluctuation while seeking the best source of return following a conservative approach with a very low volatility.

The Sub-Fund's exposure in healthcare and Energy were the main beneficiaries in the portfolio.

In 2022, the performance of the Sub-Fund was:

- LU1475008741 - Class A EUR : -11.72%
- LU1475008824 - Class A1 USD : -11.16%
- LU1475009046 - Class B EUR : -12.37%
- LU1475009129 - Class B1 USD : -12.28%

INCOMETRIC FUND - Chronos Global Equity Fund

The year 2022 began with the outbreak of the war in Ukraine, an event that caused imbalances in supply chains due to geopolitical tensions and accelerated inflation, especially in raw materials and energy. To alleviate this rise in prices, central banks were forced to apply continuous interest rate hikes during the year, causing widespread falls in equities and fixed income markets.

As in previous years, the Sub-Fund have remained fully invested in equities during the period. The Sub-Fund continues to invest globally in stocks that possess strong competitive advantages, have decent growth prospects, and are trading at attractive valuations. Because of this investment philosophy, the Sub-Fund invested mostly in consumer, technology, healthcare, and financial stocks. The US continued to be the country with the largest exposure.

The portfolio remained fairly concentrated throughout the year although the Sub-Fund gradually increased the number of holdings to over 35 stocks as of year-end.

During the first half of the year 2022, growth stocks corrected sharply as the hawkish stance shown by central banks continued to spook markets and the war in Ukraine further accelerated inflation. The Sub-Fund favored growth stocks, as well as a heavy exposure to the tech and consumer sectors, in large part explains the Sub-Fund's underperformance during the first half of the year. In the second half of the year, the Sub-Fund transitioned to a more balanced portfolio. Going forward the Sub-Fund aims to run the portfolio with a more balanced approach and to avoid taking any implicit macro risks.

In 2022, the performance of the Sub-Fund was:

- LU1700592477 - Class A EUR : -39.48%
- LU2038545799 - Class A2 EUR : -39.25%
- LU2038545872 - Class A3 EUR : -38.92%
- LU2174496187 - Class A4 USD : -43.50%

INCOMETRIC FUND - Dux Mixto Moderado

During the year 2022, the Sub-Fund decided to maintain a similar investment strategy.

The year 2022 began with the outbreak of the war in Ukraine, an event that caused imbalances in supply chains due to geopolitical tensions and accelerated inflation, especially in raw materials and energy. To alleviate this rise in prices, central banks were forced to apply continuous interest rate hikes during the year. Consequently, world economies have experienced a very complex year characterized by a progressive economic slowdown, causing widespread falls in equities and fixed income markets, although they eased during the last quarter of the year.

In this context, the Sub-Fund remained mainly exposed to the energy, the healthcare, and the consumer staples sectors. The Sub-Fund channelled these investments both through sector indices and direct investments in companies. In relation to the energy sector, the Sub-Fund believed it is common for the demand of raw materials to exceed its supply at that point of the cycle, resulting in a price increase from which oil companies have hugely benefited. On the other hand, the Sub-Fund found attractive the healthcare sector as it believed pharmaceutical companies have a resilient demand and are able to raise prices in line with the rate of inflation. Similarly, some consumer staples stocks do well because they can pass their rising input costs to consumers.

Entering the second half of the year 2022, the Sub-Fund decided to make a few tactical changes to its portfolio, whilst still abiding by its overall investment strategy. Specifically, the Sub-Fund divested from the winner stocks owned in both the energy and telecommunications sectors. Furthermore, the Sub-Fund reduced the level of exposure it had to the healthcare and consumer staples sectors and decided to switch its focus to the technology sector, which suffered a strong correction over the course of the year due to the hawkish stance adopted by central banks around the world. As for other sectors, the Sub-Fund kept the same level of exposure to the financial and real estate sectors.

During the last month of the year, the Sub-Fund gradually sold many individual stock investments, in order to invest directly on the indices Eurostoxx50 and S&P500. Moreover, the Sub-Fund chose to allocate the excess liquidity in two monetary funds, as it consider them to be an efficient way of getting a better return on its liquidity whilst limiting the level of risk adopted.

In 2022, the performance of the Sub-Fund was:

- LU1291747225 - Class A EUR : -6.76%
- LU1291747498 - Class B EUR : -7.41%

INCOMETRIC FUND - Equam Global Value

The Sub-Fund invests mainly in European Equities, with a long term, value-investing philosophy. The Sub-Fund believes that its portfolio is very well suited for the new economic scenario. The companies of the portfolio have demonstrated over the past year that they can pass through all cost increases derived from inflation, thus offering very good protection against inflation over a multi-year investment period. the Sub-Fund's investments have low debt ratios, which represents a clear advantage in the current environment of higher interest rates. Most importantly, the Sub-Fund's portfolio is trading at a steep discount to its intrinsic value. This offers both protection from market corrections and the potential to achieve significant capital gains.

During the year 2022, the Sub-Fund did not make any changes in global allocation and continued to invest mainly in European small and mid-cap equities. The Sub-Fund has not made any changes in strategy and continued to invest following value investment criteria and a long term investment horizon. The Sub-Fund continues to look for companies that are performing well, have sound competitive positions and low financial leverage ratios and that are trading at a discount to their intrinsic value.

During the year 2022, The Sub-Fund increased its investment in Vopak, Academedia, Applus, AllforOne, Dalata Hotels, TI Fluids and Elecnor. It also sold its VIVO plc position following the takeover bid launched by Vitol. The Sub-Fund also divested its Intertrust position, following takeover bid launched by CSC. The Sub-Fund also exited its Orsero and Euronav investments after the very good performance of their shares, and sold Fresenius to invest in better opportunities. The Sub-Fund reduced its exposure to Navigator, Restore and Neurones due to their good performance. After all these transactions, the Sub-Fund ended the year with about 40 holdings.

During the year 2022, the best performers were companies related to commodities. KLXE, TGS Nopec and Expro, all three related to Oil and Gas exploration and production, have performed very positively. Origin Enterprises, which sells fertilizer and crop protection products and services also increased significantly, while Navigator, linked to the pulp and paper cycle, saw its share price increase as well.

The Sub-Fund's worst performers have been affected by issues specific to their business: Sonans, which offers education services in Norway, has seen enrolment rates fall, due to the good employment situation of the country and the effects on online preference of consumers. TI Fluids, related to the automotive sector, has been affected by the supply chain issues that have weighed on automotive production.

In 2022, the performance of the Sub-Fund was:

- LU0933684101 - Class A EUR : -3.72%
- LU0933684283 - Class B EUR : -4.56%
- LU1274584488 - Class C EUR : -1.09%

INCOMETRIC FUND – European Sectors (EUR)

During the year 2022, the Sub-Fund continued to base its strategy on a meticulous positioning in stocks denominated in different currencies of European countries and considered the most appropriate for each month.

We are living in exceptional times: a worldwide pandemic without precedent in recent centuries that has triggered a deep economic crisis, leading to sharp falls in markets last year, before recovering to reach new historic highs. Nevertheless, the economic and fiscal stimulus launched by governments and central banks to cope with the pandemic, along with disruptions in supply chains, have created the highest levels of inflation in recent decades. In addition, the conflict between Ukraine and Russia is also causing disruptions in the prices of raw materials, which adds further pressure to inflation levels. This is why central banks are having to take restrictive measures in terms of economic policy, raising interest rates and reducing balance, which is causing a global fall in the price of financial assets, both fixed and variable income. All of this is generating high volatility in markets, with the VIX remaining at high levels.

The Sub-Fund's vision for credit markets is mainly negative, as it sees a lot of risk in European sovereign bonds, especially in the long part of the curve where interest rate increases are having the most impact and will continue to have the most impact. However, the Sub-Fund is more positive about short-term American fixed income, which offers an interesting short-term return of around 4% in dollars, acting as a safe place against major currencies.

As for equity, the Sub-Fund's vision is also neutral. If uncertainty continues and this causes falls in markets and an increase in volatility, the Sub-Fund will continue to maintain a more defensive position. However, if the Sub-Fund identifies a change in trend, it will increase its exposure to those markets with better return/risk ratios. In this context, during the next months the Sub-Fund will be monitoring market developments, trying to take advantage of opportunities that arise in different assets to adjust the portfolio at each moment.

The portfolio experienced a sharp decline in January, due to a higher exposure to equity. Since then, it reduced its equity exposure. Since the beginning of September, the Sub-Fund sought refuge in liquidity (mainly through government bonds of eurozone countries) as financial markets entered a volatile period.

INCOMETRIC FUND – European Sectors (EUR) (continued)

Equinor, Flex and Thungela were among the best performers during the year 2022. In fact, Sub-Fund's strategy has very low risk and decorrelated ratios, which is ideal for an investor that wants to diversify its portfolio.

In 2022, the performance of the Sub-Fund was:

- LU0500924377 - Class A EUR : -14.83%

INCOMETRIC FUND - Gesconsult Flexible Income

The first part of 2022 was a period in which a large number of non-common events coincided, being all of a very high importance: some major Central Banks started removing the safety net (liquidity) that supported the financial markets and just at a time when macroeconomic forecasts were worsening; inflation reached levels not seen for decades; a war in Europe that increased inflationary fears; supply chains that have not yet been normalized, etc... All those events had a clear impact on the financial markets, leading to one of the toughest year in history.

In the second half of 2022, financial markets continued to show great volatility as a result of the complex economic environment, with inflation and monetary policy once again the main focus for investors.

Although inflation in the United States peaked at 9.1% in June 2022, the central banks maintained a hawkish tone, which caused the tightening of the valuations, both in fixed income and variable income.

The Sub-Fund's portfolio is made of "conviction ideas" and owns companies which were identified as having a solid business model, strong management and an attractive entry price. The Sub-Fund is focused on capital preservation during turmoil and capital growth during expansion periods.

During the year 2022, there was no changes in the strategy: the Sub-Fund continues to invest between 0%-30% in equity assets, and the rest in public or private fixed income. The remaining exposure can be invested in other OCDE issuers.

During the year, the Master Fund Gesconsult Renta Fija Flexible, FI increased its equity exposure with investments in FCC, Munich RE, Adobe and Sacyr among others, while investing in the following bonds: Repsol 2.5% Perp, Netflix 3% 06/25, Merlin 1.875% 02/26, VW 3.375% Perp, Unicaja 4.5% 06/25 among others.

Meanwhile, it decreased or closed the following equity positions: SAP, Amazon, Microsoft, Alibaba, Navigator and ASML, while decreasing or closing JMP 0 25/47, Axa 5.125% 07/47, BNP 6.125% Perp, CS 01/26 among others EDP 2.375% 03/23, UCGIM 0 05/23 among others.

In 2022, the main assets that have contributed are Navigator, Inditex, Tubacex, Sacyr, Munich Re and Repsol. In the negative side, there were Meta, Alphabet, Microsoft and Cellnex.

In 2022, the performance of the Sub-Fund was:

- LU1321562982 - Class I EUR : -11.35%

INCOMETRIC FUND – GFED AEQUITAS

The Sub-Fund began trading in October 2022. The global financial markets faced big challenges in 2022, including the Russian invasion of Ukraine, which impacted energy and commodity prices, and prices overall, pushing the global rate of inflation to roughly 9% by year end. Most central banks followed the US Federal Reserve and raised interest rates to control inflation, affecting negatively both bond and equity prices. Additionally, China's economic growth slowed during 2022, due to their "Zero-COVID" policy and the government's stance against the technology companies.

INCOMETRIC FUND – GFED AEQUITAS (continued)

The Sub-Fund's investment strategy is based on two pillars: achieving returns through a long-term endowment management style and adhering to an Environmental Social and Governmental (ESG) investment policy in line with the Catholic Church's ethical, social, and moral principles, with a special focus on the right to live.

The Sub-Fund's investment portfolio is diversified across companies, themes, and geographical regions to minimize financial risks and reduce portfolio volatility. The strategy is based on analysing ethical, innovative, social, and economic trends to generate compelling investment opportunities. The Sub-Fund divides its portfolio into three main areas: Fixed Income, Equities, and Real Assets, which include commodities, infrastructure, and Real Estate. Its long-term investment themes include natural resources, infrastructure spending, stable real estate returns, emerging market growth, and technology and biotechnology.

In 2022, the Sub-Fund portfolio performance was driven by exposure to equities, particularly emerging markets. Its Foreign Exchange coverage strategy helped reduce the impact of currency movements on performance, basically the EURO/US Dollar movement. Real assets had mixed results, with natural resources and commodities negatively impacting performance, while real estate and infrastructure were net contributors. Fixed income assets struggled due to adjustments to rising interest rates, but the Sub-Fund's hedges were not enough to fully offset the bond price changes.

Going forward, the Sub-Fund plans to increase its exposure to fixed income as it finds attractive rates in certain bonds for the first time in a long period. The Sub-Fund reduced its equity exposure as valuations become rich, but was willing to maintain its 25/30% exposure to real assets such as infrastructure, renewable energy, commodities, and listed real estate. The Sub-Fund believes these assets are better positioned in an inflationary world than traditional stocks. The Sub-Fund also plans to maintain its investments in the CLOs market as it sees positive risk-reward opportunities. In equities, the Sub-Fund will maintain exposure to emerging markets and companies that benefit from their growth, while reducing exposure to technology and growth companies, including semiconductors.

Bonds have been an unattractive asset for the Sub-Fund's investment portfolio for the last five years, mainly due to their low interest rates, which did not justify the associated risks. However, the scenario has changed in 2022 with the raise of interest rate, providing new opportunities for bonds with good balance sheets and for the high yielding sector, assuming inflation rates decrease over time.

Regarding equities, the Sub-fund reduced its exposure after a strong performance in November, which benefited in December. The Sub-Fund continues to maintain a relatively high exposure to emerging markets and companies that will benefit from their growth, and to the reopening of China.

In Real assets, the Sub-Fund believes the asset class offers better protection against inflation, as the revenues of the companies are revised accordingly. However, during this year of high inflation, Real Estate Investment Trusts (REITs) were very negatively impacted by interest rate increases, and their balance sheets have been affected by new debt.

The Sub-Fund maintained its exposure to companies in the transition to green energy, including manufacturers and producers of green energy, as well as natural resources and commodities. The Sub-Fund believes that the low capex of the oil and copper industries in the last decade will change in the next decade, resulting in positive opportunities for investment.

As ethical investors, the Sub-Fund aligns its investments with the principles established by the Catholic Church, seeking companies that provide long-term financial returns while also improving the well-being of employees, suppliers, customers, stakeholders, and society. The Sub-Fund continuously reviews its investments to ensure they align with these principles.

INCOMETRIC FUND - Global Arrow

The Sub-Fund started the year 2022 with a direct and indirect equity exposure of around 84%. The remainder of the Sub-Fund was invested at the time in alternative assets (about 15%) and liquidity. The Sub-Fund reduced its equity exposure dramatically at the beginning of the year to about 40%, and kept this exposure around that level until November when it increased its equity exposure to above 55% in light of improving fundamentals and market momentum.

The Sub-Fund actively managed the adverse interest rate environment by exposing itself to Fixed Income short instruments. Most of the Sub-Funds USD exposure was sold by mid November in order to avoid currency risk.

In 2022, the performance of the Sub-Fund was:

- LU1404337138 - Class A EUR : -13.90%

INCOMETRIC FUND - Global Strategy Fund

The Sub-Fund started 2022 moderately exposed to equities about 28% and bonds around 20%. Liquidity (cash & short term investments) was high, standing at roughly 40% in anticipation of a complex start of the year. The equity exposure increased during Q4 to over 45% as some doubts about the underlying conditions began to dissipate.

In 2022, the performance of the Sub-Fund was:

- LU1321861970 - Class A EUR : -9.79%

INCOMETRIC FUND - Global Valor

During 2022, the Sub-Fund did not change its strategy. The Sub-Fund continues to hold a portfolio of diversified securities in terms of countries and sectors. The Sub-Fund started the year with a 25%+ exposure to the technology sector, 20% to the consumer non-cyclical and 16% to the industrial sector. Following the Russian invasion of Ukraine, the exposure to Basic Materials was increased from ca. 8% to over 13%. Towards the middle of the year, as financial markets reacted to the rapid increase in benchmark interest rates around the world (but most importantly in the USA), the Sub-Fund started to reduce its trading volume in order to limit the costs to the shareholders. The Sub-Fund eventually ended the year with a more balanced sectoral allocation, with over 20% in technology, 17% in consumer non-cyclical, 16% in industrial and 12% in basic materials. The remaining was split between energy, financial and consumer cyclical.

In 2022, the performance of the Sub-Fund was:

- LU0471596014 - Class A EUR : -30.74%
- LU0471596105 - Class B EUR : -30.74%
- LU0471596287 - Class I EUR : -30.50%

INCOMETRIC FUND - Heed Patrimonio

The Sub-Fund started the year 2022 with an equity allocation just below 50%, that was maintained throughout the year, reducing slightly in November and December, and finishing the year with an exposure around 46%.

On the other hand, the Sub-Fund's Fixed Income allocation had some changes during the year. It started 2022 with a US Treasuries' exposure close to 35%, mainly in the long end (over 10 year) that was kept at elevated levels until September.

During the last quarter of 2022, the Sub-Fund reduced US Treasury exposure to about 20%. In Europe, the Sub-Fund started the year with a short position in German sovereign debt, that was gradually reduced during the first quarter, closing it fully at the end of the second quarter. The Sub-Fund's Italian sovereign debt exposure started the year around 16%, which was gradually reduced in the first quarter to around 11%. During the second quarter, the Sub-Fund increased the position to over 20% as the spread against German bonds widened significantly. The Sub-Fund kept the position during the rest of the year. At the end of the third quarter, the Sub-Fund entered a position in French sovereign debt, finishing the year around 8%.

INCOMETRIC FUND - Heed Patrimonio (continued)

Credit exposure was relatively low at the beginning of the year 2022, with around 6%, mainly in financial debt. In April, the Sub-Fund started to gradually increase credit exposure, finishing the year with a position of around 17%.

Duration wise, the Sub-Fund started 2022 with around 5, that was increased until June to circa 7.6. In July, the Sub-Fund reduced duration tactically to below 6 and increased it again until September to approximately 8. In the last quarter, the Sub-Fund gradually reduced duration to finish the year with close to 6.5.

In terms of geographies, the Sub-Fund continued to prefer Europe instead of the US which seems offered more attractive valuations. As the year progressed, the Sub-Fund increased US its exposure while taking profit on European equities. The Sub-Fund started the year with around 35% exposure to European equities and increased it further at the end of February to around 39%. From the beginning of the second quarter to the end of the year, the Sub-Fund reduced it to around 29%. In the US, the Sub-Fund started the year with around 9%, that we gradually increased, to finish the year with around 12%.

Exposure to emerging market equities was modest, slightly below 3%, and finished the year with an exposure around 4%.

The Sub-Fund started the year with a position of long USD slightly below 14%. As the USD rallied throughout the year, the Sub-Fund reduced its exposure to zero at the end of the third quarter. In the last quarter the Sub-Fund increased its USD long position to 6% as the USD gave up some of the gains.

In 2022, the performance of the Sub-Fund was:

- LU0701293705 - Class A1 EUR : -19.87%
- LU2240609987 - Class C EUR : -19.44%

INCOMETRIC FUND - Hellenic Global equities

Despite the US Federal Reserve's (the Fed) pivot regarding the transitory nature of inflation, optimism was high heading into the beginning of 2022. Most investors expected above average returns as COVID-19 fears subsided and pent-up demand was forecasted to increase corporate earnings.

However, as inflation continued surging in the interim, reaching 40-year highs, the Fed (and most central banks globally) embarked on a cycle of monetary tightening. The unprecedented fiscal and monetary stimulus in 2021, combined with Russia's invasion of Ukraine, were key factors in fuelling inflationary pressures. This marked a rare occasion of declines in fixed income as well as equity markets for 2022.

The Sub-Fund has an active mandate to shift across regions and sectors, and operates based on four main pillars: (i) fundamental; whereby individual stocks are selected on valuation metrics that suggest meaningful upside within 6-12 months, (ii) global macro; whereby macroeconomic conditions and indicators are analysed to produce attractive regions

and sectors under a more medium-term holding horizon (2-6 months), (iii) technical, whereby individual positions are selected purely on the basis of technical analysis with a short-term horizon and strict risk management, and lastly (iv) conviction, whereby equities selected are fundamentally attractive and simultaneously exhibit positive technical setups, the holding period is undefined and varies. The 'conviction' pillar was introduced this year to the Sub-Fund's investment strategy, providing increased flexibility to execute more specific high-conviction investment decisions.

The Sub-Fund operates with an active mandate, allowing for dynamic adjustments in directional exposures. The primary focus of the investment strategy is focused on global equities, with a concentrated emphasis on developed markets. The Sub-Fund aims to maintain a portfolio of approximately 80-120 positions, with the current number of positions near the mid-range of this target. Over the course of the year, in response to market conditions, the allocation strategy was adjusted to favour additional exposure to USD-denominated assets. The Sub-Fund maintains a relatively small exposure to assets denominated in other currencies, including the Great British Pound and the Swiss Franc. By and large, the Sub-Fund is hedged against currency fluctuations.

INCOMETRIC FUND - Hellenic Global equities (continued)

As of year-end 2022, the allocation strategy of the Sub-Fund's portfolio exhibits an overweight exposure to the financial sector, as well as a preference for investments in the Euro area over those in the United States. The performance of the Sub-Fund for 2022 was negatively influenced primarily by the Federal Reserve's interest rate increases aimed at addressing inflationary pressures. The global market sell-off, characterized by unprecedented volatility and uncertainty, had the largest impact on the Sub-Fund's global macro investing pillar. The 'technical' and 'conviction' strategic pillars demonstrated exceptional resilience throughout the year, emphasizing the benefits of stringent risk management and utilizing technical confirmations in the face of an unpredictable and volatile market environment.

Approximately two-thirds of the Sub-Fund's holdings have been chosen predominantly based on value metrics as part of the 'fundamental' and 'conviction' strategic pillars. These fundamental-oriented positions have a medium to long-term investment horizon, spanning between 6 to 12 months. With the exception of increased emphasis on cash flow metrics, the underlying assumptions and selection process for fundamental positions remain unchanged. The primary considerations from a risk management standpoint are idiosyncratic volatility and company-specific risk.

Closing the year, the Sub-Fund had exposure to Global Financials, Emerging Markets, European Energy, US Equities, and Commodities via Exchange Traded Funds (ETFs), which constitute about one-sixth of net asset value. The allocation of capital in ETF investments is anticipated to remain consistent, with the Sub-Fund's strategy primarily centred on individual stocks.

INCOMETRIC FUND - IMANTIA FUTURO

The Sub-Fund is a multi-thematic global equity fund with a strategy that combines both qualitative aspects and quantitative tools to build a portfolio in which risk control plays a key role. The objective is to compose a diversified portfolio that allows to capture the growth of the themes, but with an active risk control, in order to avoid temporary blockbusters, investing in those themes that really represent a change and a consistent growth.

The themes selected to form part of the investment universe and the future portfolio must fall within one of the following megatrends: 1) Technology and innovation 2) Social and demographic changes 3) Sustainability.

The year 2022 has been a challenging year for the Sub-Fund's investments. The outbreak of the armed conflict in Ukraine triggered a paradigm shift, not only because of investors' risk aversion, but also because of a new inflationary scenario without recent precedent, which has caused central banks to radically change their stance on monetary policy, one of the most significant events being the sharp rise in interest rates to halt inflation.

This economic context has led to strong corrections in the share prices of companies, globally and with a special impact on growth, technology and large capitalisation companies, which were the most overvalued.

The best performing sectors have been those related to energy and commodities, as well as defensive sectors such as healthcare, in which the fund has less presence because of its focus on growth and disruptive companies.

There were no major structural changes in the Sub-Fund's asset allocation during the year. Some of the remarkable changes were the sale of Exchange Traded Funds (ETFs) within the thematic areas of population ageing, batteries, and electric mobility while on the outflow side of the portfolio were robotics and cybersecurity.

The Sub-Fund ended the year with 18 ETFs in the portfolio and 15 sub-themes, with the largest concentration in Water, Batteries and Electric and Future Mobility. Geographic distribution is mainly USA with over 40%, Japan about 8% and the UK around 5%. By sector, the largest exposure is in Industrials, Materials and Utilities.

The Sub-Fund is a thematic global equity fund with a strategy that combines both qualitative aspects and quantitative tools to build an equity-focused portfolio in which risk control plays a key role. The objective is to compose a diversified equity portfolio, with a focus mainly on US and European companies, that allows to capture the growth of the theme, but with an active risk control. In this sense, the Sub-Fund is focused on companies that encourage and support a healthy lifestyle and promote the improvement of the quality of life and wellness economy.

The companies selected to be part of the investment universe and the future portfolio must fall within one of the following sub-themes: 1) Nutrition, 2) Sports, 3) Medical Advances, and 4) Longevity.

The year 2022 has been a challenging year for the Sub-Fund's investments. The Russian invasion of Ukraine triggered a paradigm shift, not only because of investors' risk aversion, but also because of a new inflationary scenario without recent precedent, which has caused major central banks to radically change their monetary policy stance and significantly raising benchmark interest rates to hold back inflation.

This economic context has led to strong corrections in the share prices of companies, globally and with a special impact on growth, technology, and large capitalization companies, which were the most overvalued.

The best performing sectors have been those related to energy and commodities, as well as defensive sectors such as healthcare, being the latter more present in the fund portfolio through the Longevity and Medical Advances blocks. On the other hand, Sports thematic and, to a lesser extent, Nutrition, suffered a weaker performance.

During the year 2022, the Sub-Fund increased the weight in the Medical Advances block, reducing it mainly in Longevity, but also in Sports theme. Geographically, the exposure to the US market was broadly stable, while it increased in the French and UK markets, being reduced in the German one.

On the stocks side, the Sub-Fund added positions in Teleflex, Perrigo, Indivior or Perrigo, selling down Puma, Nike, Hain Celestial, Perkin Elmer or Sonova. The fund ended the year with over 70 stocks in the portfolio and 4 sub-themes.

In 2022, the performance of the Sub-Fund was:

INCOMETRIC FUND - IMANTIA PRO QUANT

The Sub-Fund employs qualitative and quantitative techniques to construct a portfolio based on market indicators. In this way, depending on economic and financial indicators, the Sub-Fund increases or decreases its exposure to equity markets. In times of risk aversion, exposure to precious metals (mainly gold) and Fixed Income is used as defensive strategies.

INCOMETRIC FUND - IMANTIA PRO QUANT (continued)

The year 2022 has been a challenging one for the Sub-Fund's investments. The Russian invasion of Ukraine triggered a paradigm shift, not only because of investors' risk aversion, but also because of a new inflationary scenario without recent precedent, which has caused major central banks to radically change their monetary policy stance significantly raising benchmark interest rates to contain inflation.

As a result, the S&P 500 index ended the year down 19.4% while gold ended up flat (-0.3%). Furthermore, high volatility and strong declines in risky assets impacted the performance of the Sub-Fund.

The Sub-Fund ended the year with an exposure of around 60% to equity funds focused on US equities and about 20% in gold, after having been at even more defensive levels and anticipating a possible improvement in the outlook for the start of 2023.

In 2022, the performance of the Sub-Fund was:

- LU2399972954 - Class L1H EUR : -9.28% (*)
- LU2399972871 - Class L2 USD : -8.53% (**)

INCOMETRIC FUND - Investore Fundamentals

During 2022, the Sub-Fund did not change its strategy and traded only to meet redemptions. As a result of the trading, the Sub-Fund exposure in equity funds decreased slightly to about below 47% at the end of the year while balanced and fixed income funds reached about 53%.

In 2022, the performance of the Sub-Fund was:

- LU0334975710 - Class B EUR : -19.34%

INCOMETRIC FUND – Nartex Equity Fund

Last year saw significant decline in financial markets driven by (i) high inflation rates on the back of constrained supply chains as a result of the pandemic and the Russia-Ukraine war which led to (ii) tightening of the monetary policy across the US and Europe increasing the cost of capital resulting in (iii) weaker consumption and (iv) the expectation of sustained macroeconomic weakness.

The Sub-Fund focused on buying high quality companies at reasonable prices. It remained significantly invested (over 90%) with almost 25 holdings seeking long-term capital appreciation. The Sub-Fund had limited rotation in the portfolio. It divested Nike (mainly as a consequence of lower visibility with regards to their ability to regain market share in China), OTIS (other industrial businesses showed more attractive risk-return characteristics), Stryker (the Sub-Fund remains concerned on the ability to pass on cost increases to their customers given the affordability constraints in the hospital sector in the US and Europe) and SS&C technologies (the Sub-Fund's diligence identified lower barriers to entry in their key verticals).

The Sub-Fund also sold out of Moody's and bought S&P as it believes the synergies from the IHS purchase offer a more attractive risk/return opportunity.

The Sub-Fund's analysis remains granular and bottom-up, but at a sector level the Sub-Fund retains a relatively low exposure to healthcare and consumer sectors given the high multiples at which these industries are trading relative to the resilience and earnings growth rates offered by these companies. The Sub-Fund is finding more attractive price opportunities in industrials, financial services or technology.

INCOMETRIC FUND – Nartex Equity Fund (continued)

In 2022, the performance of the Sub-Fund was:

- LU2357235493 - Class A EUR : -10.11%
- LU2357235576 - Class B EUR : -10.50%

INCOMETRIC FUND - Patrifund

The Ukraine war, China's economic tailspin and Central Banks increase of their benchmark interest rates have made 2022 one of the worst stock and bond market years in decades.

Given that financial markets dropped sharply while volatility increased significantly, in order to protect the interests of the investors, the Sub-Fund decided to underweight equity and maintain large amounts of cash.

In this sense, the large position in cash has actually been two-fold: to lower the volatility of the Sub-Fund (by reducing the equity exposure of the portfolio) and to be prepared in the event of having to pay out any large and/or unexpected redemption without harming the remaining unitholders.

The Sub-Fund thus invested in short-term US Treasury Bonds and in a money market fund during the first semester of 2022. Throughout the second semester, the Sub-Fund mainly invested in corporate bonds.

This strategy will continue in the mentioned manner as long as volatility remains and until positive trends emerge.

During the year 2022, there was no significant change in the global allocation nor in the sectors strategy other than the following:

- a reduction of the weighting of Finance, Technology and Industrial sectors;
- an increase in the weighting of Consumer sector.

In 2022, the performance of the Sub-Fund was:

- LU2262800142 - Class A EUR : -16.90%

INCOMETRIC FUND - Tressis Stable Return (previously Stable Return) (in liquidation)

The investment objective is to earn a long-term total return by capturing positive trends in equity markets while limiting volatility and drawdowns via risk reductions and secure appropriate portfolio activity and protection. The portfolio aligns with the global macro-economic context, by shifting to safer allocations and reducing risky assets when the outlook is most negative, while going back into the market when risk-adjusted returns are again attractive. Since first-December the fund is invested in 50% global equities and 50% FI as the perspectives have become more clear and attractive in an economic context. In case the outlook deteriorates substantially, the Fund will move back to a defensive position consisting 100% of safe-haven assets in order to protect investors' capital and minimize the Funds' drawdown.

The portfolio was invested in money-markets during the first part of the quarter as liquidity was not sufficient to meet the desired allocations exposure. By mid-August the Fund entered equity-markets, increasing allocation in a two-step process, first by exposing the portfolio to a 30% allocation to equities which was later increased by 50%. In September, due to the end-of-summer rally, the Fund got back to a portfolio composed of 100% fixed income instruments and money markets, particularly to US Treasuries along the short-end of the curve and USD-denominated money-market instruments. The Fund remained in this allocation through most part of the remaining quarter, going back to equity markets along different geographic dimensions, predominantly US, Asia ex-Japan and EMU regions and to a lesser extent to Japanese and EM equities, up to 50% of the portfolio, while the rest of the portfolio was allocated to EM FI instruments, US Investment Grade Bonds, and to a lesser extent to US Treasuries increasing the duration to mid (3-7y) and Global Convertibles. All these exposures were attained using UCITs USD denominated ETFs.

The full exposure is currently achieved using UCITs USD-denominated ETFs.

INCOMETRIC FUND

INCOMETRIC FUND - Tressis Stable Return (previously Stable Return) (in liquidation) (continued)

In 2022, the performance of the Sub-Fund was:

- LU2051645708 - Class A EUR : -11.39%

INCOMETRIC FUND - Triton (LF) Global Balanced Fund

After a bull market that lasted for more than a decade since the Global Financial Crisis of 2008-09, financial markets experienced a massive pullback in 2022. Inflation's surge to 40-year highs led the Fed to an unprecedented series of interest-rate increases, cratering the bond market and sending stocks into a bear market that continued into the end of the year. In addition, the war in Ukraine hugely distorted global food and energy supply chains, further emphasized by the conflict between the US and China. As the safe-haven US dollar strengthened, goods almost everywhere else became more expensive, adding to global central bank tightening pressures. In this environment, equities and bonds declined in tandem by the most ever in 2022, with joint losses of about 20% at the low point. Cash outperformed almost every asset class.

In this environment the Sub-Fund recorded a negative performance for the year.

Direct equity exposure was around 20% through 2022, which lower compared to the respective average of 2021. The stock picking was a blend of value and growth stocks. Meanwhile, Fixed Income exposure averaged about 55% through 2022 which was slightly higher than the 2021. The Modified Duration of the fixed income portfolio was targeted at around 2.5 years which helped the portfolio to behave more defensively. During 2022, as the European Central Bank terminated its purchasing program – net asset purchases were discontinued at the end of March 2022 – spreads widened again, and debt sustainability concerns resurfaced.

Exposure to funds (both mutual funds and Exchange Traded Funds) averaged at 4% through 2022, lower than the average of the previous year. Specifically, the fund invested in American Equities, European Equities and global healthcare technology small and mid-cap equities.

Through the year 2022, the Sub-Fund used future contracts to mitigate foreign currency risk and specifically exposure to US Dollar. Also, future contracts of major stock indices were used to either reduce or increase equity exposure according to the fast-changing market conditions.

In 2022, the performance of the Sub-Fund was:

- LU1389122992 - Class A EUR : -0.30%
- LU1389123024 - Class B USD : -6.23%

REPORT OF THE REVISEUR D'ENTREPRISES AGREE

Report on the audit of the financial statements

Opinion

We have audited the financial statements of INCOMETRIC FUND and each of its sub-funds ("the Fund"), which comprise the statement of net assets and the statement of investments in securities as at 31 December 2022 and the statement of operations and changes in net assets for the year then ended and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of INCOMETRIC FUND and each of its sub-funds as at 31 December 2022, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession ("Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the Commission de Surveillance du Secteur Financier ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the « Responsibilities of "réviseur d'entreprises agréé" for the Audit of the Financial Statements » section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to Note 2.1 and Note 15 of these financial statements, which indicates the decision of the Board of Directors of the Fund's Management Company to close the sub-funds INCOMETRIC FUND – Cartago US Income (in liquidation), INCOMETRIC FUND – Deep Mind Strategic Fund (in liquidation) and INCOMETRIC FUND – Tressis Stable Return (previously Stable Return) (in liquidation) on 23 February 2023, INCOMETRIC FUND - Gesconsult Flexible Equity (in liquidation) on 28 March 2023 and INCOMETRIC FUND – Gesconsult Spanish Equity (liquidated on 23 May 2022). The financial statements of the concerned sub-funds have therefore been prepared using a non-going concern basis of accounting. Our opinion is not modified in respect of this matter.

Other information

The Board of Directors of the Fund's Management Company is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund's Management Company and Those Charged with Governance for the financial statements

The Board of Directors of the Management Company is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund's Management Company determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund's Management Company is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of of the Fund's Management Company either intends to liquidate the Fund or any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the "réviseur d'entreprises agréé" that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of the Fund's Management Company.
- Conclude on the appropriateness of the Board of Directors of the Fund's Management Company use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund *or any of its sub-funds* (except for the sub-funds INCOMETRIC FUND – Cartago US Income (in liquidation), INCOMETRIC FUND – Deep Mind Strategic Fund (in liquidation), INCOMETRIC FUND – Tressis Stable Return (previously Stable Return) (in liquidation) and INCOMETRIC FUND - Gesconsult Flexible Equity (in liquidation) where a decision or an intention to close exists) to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

INCOMETRIC FUND

Notes to the Financial Statements for the year ended December 31, 2022 (continued)

Note 2 - Significant accounting policies

2.1 Presentation of the financial statements

The financial statements for the Fund's first year were dated December 31, 2006 and subsequently on December 31 of each year. The financial statements have been prepared in accordance with the Luxembourg regulations relating to undertakings for collective investments ("UCIs") under the going concern basis of accounting except for the Sub-Funds INCOMETRIC FUND - Cartago US Income (in liquidation), INCOMETRIC FUND - Deep Mind Strategic Fund (in liquidation), INCOMETRIC FUND - Gesconsult Flexible Equity (in liquidation), INCOMETRIC FUND - Gesconsult Spanish Equity (liquidated on 23 May 2022) and INCOMETRIC FUND - Tressis Stable Return (previously Stable Return) (in liquidation) for which the preparation basis changed to non-going concern basis.

2.2 Valuation of Investments

The net asset value is calculated in accordance with the following principles:

- The value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as may be considered appropriate in such case to reflect the true value thereof.
- The value of securities listed or dealt in on a Regulated Market, stock exchange or other regulated markets are valued at the closing price on such markets on the day preceding the Valuation Day, save for securities listed on an Asian exchange, the value of which will be measured applying the closing prices on the Valuation Day. If a security is listed or traded on several markets, the closing price at the market which constitutes the main market for such securities, is determining;
- If the securities are not listed or dealt in on a Regulated Market, stock exchange or other regulated markets or if, in the opinion of the Management Company, the latest available price does not truly reflect the fair market value of the relevant securities, the value of such securities is defined by the Management Company based on the reasonably foreseeable sales proceeds determined prudently and in good faith by the Management Company;
- All other assets are valued at fair market value as determined in good faith pursuant to the procedures established by the Management Company.

The Management Company, at its own discretion, may permit some other method of valuation to be used if it considers such valuation to be in the interest of a fair valuation of an asset of the Fund.

The Net Asset Value per Unit of each Class of Units in each Sub-Fund is determined on each Valuation Day and is expressed in the Reference Currency of the Sub-Fund.

The Net Asset Value per Unit of each Class of Units is determined by dividing the value of the total assets of that Sub-Fund properly allocable to such Class less the liabilities of such Sub-Fund properly allocable to such Class by the total number of Units of such Class outstanding on the relevant Valuation Day.

2.3 Combined financial statements

The various items in the financial statements of each Sub-Fund are kept in the reference currency of the Sub-Fund.

The combined statements are presented in Euro ("EUR") and correspond to the sum of the various items of each Sub-Fund converted if necessary with the exchange rate prevailing on the closing date. Any differences of exchange rates between December 31, 2021, and December 31, 2022, are presented in the Statement of operations and changes in net assets under the caption Exchange difference.

2.4 Dividend and interest income

Dividend income is accounted for on an ex-dividend basis, net of withholding tax. Interest income is recognised on an accrual basis.

2.5 Foreign currency translation

The reference currency of the Fund is EUR and the combined statements are expressed in that currency.

The net assets as well as the market value of the investments in securities expressed in currencies other than EUR are converted into EUR at the exchange rate prevailing at the balance sheet date.

Income and expenses expressed in currencies other than EUR are converted into EUR at the prevailing exchange rate at payment date.

INCOMETRIC FUND

Notes to the Financial Statements for the year ended December 31, 2022 (continued)

Note 2 - Significant accounting policies (continued)

2.5 Foreign currency translation (continued)

Gain or loss on foreign currencies is included in the Statement of operations and changes in net assets.

The cost of securities denominated in currencies other than EUR is converted at the exchange rate prevailing at the date of acquisition.

The exchange rates vs EUR prevailing as at December 31, 2022 are as following:

Currency	Exchange rate	Currency	Exchange rate
Australian Dollar (AUD)	1.571085	Mexican Peso (MXN)	20.886150
Brazilian Real (BRL)	5.662350	Norwegian Krone (NOK)	10.514100
British Pound (GBP)	0.885515	Singapore Dollar (SGD)	1.434200
Canadian Dollar (CAD)	1.449075	South Korean won (KRW)	1,349.635000
Czech Koruna (CZK)	24.124000	Swedish Krona (SEK)	11.155200
Danish Krone (DKK)	7.435900	Swiss franc (CHF)	0.987505
Hong Kong Dollar (HKD)	8.354300	Thailand Baht (THB)	37.113100
Indonesian Rupiah (IDR)	16,675.815000	Turkish Lira (TRY)	20.039150
Japanese Yen (JPY)	140.345000	United States Dollar (USD)	1.071050
Malaysian Ringgit (MYR)	4.703700		

2.6 Realised gains and losses on sales of investments in securities

Investments are initially recognised at cost, which is the amount paid for the acquisition of securities, including transaction costs. Realised gains or losses arising on disposal of investments are determined on the basis of the average cost of investment sold and are recognised in the Statement of operations and changes in net assets.

2.7 Futures contracts

Futures contracts provide for the delayed delivery of the underlying instrument at a fixed price or for a cash amount based on the change in the value of the underlying instrument at a specific date in the future. Upon entering into a futures contract, the Fund is required to deposit with the broker, cash or securities in an amount equal to a certain percentage of the contract amount which is referred to as the initial margin account. Subsequent payments, referred to as variation margin, are made or received by the Fund periodically and are based on changes in the market value of open futures contracts.

Outstanding futures contracts are valued by reference to the last available settlement price on the relevant market. Outstanding futures contracts as at year-end are disclosed in Note 8.

2.8 Forward foreign exchange contracts

Forward foreign exchange contracts represent obligation to purchase or sell foreign currency on a specified future date at a price fixed at the time the contracts are entered into. Non-deliverable forward foreign exchange contracts are settled with the counterparty in cash without the delivery of foreign currency. Changes in the value of these contracts are recorded as unrealised appreciation or depreciation until contract settlement date. When the forward foreign exchange contract is closed, the Fund records a realised gain or loss to the difference between the value at the time the contract was opened and the value at the time it was closed.

Outstanding forward foreign exchange contracts as at year-end are disclosed in Note 7.

2.9 Options

Outstanding options contracts are valued by reference to the last available settlement price on the relevant market. Outstanding options contracts as at year-end are disclosed in Note 13.

INCOMETRIC FUND

Notes to the Financial Statements for the year ended December 31, 2022 (continued)

Note 2 - Significant accounting policies (continued)

2.10 Formation expenses

The costs and expenses of the formation of the Fund and the initial issue of its Units will be borne by the Fund and amortized over a period not exceeding 5 years from the formation of the Fund and in such amounts in each year as determined by the Management Company on an equitable basis.

The costs and expenses incurred in connection with the creation of a new Sub-Fund shall be written off over a period not exceeding five years against the assets of such Sub-Fund only and in such amounts each year as determined by the Management Company on an equitable basis. The newly created Sub-Fund shall not bear a pro-rata of the costs and expenses incurred in connection with the formation of the Fund and the initial issue of Units, which have not already been written off at the time of the creation of the new Sub-Fund.

2.11 Other expenses

Any reasonable disbursements and out-of-pocket expenses (including without limitation telephone, telex, e-mail, website, cable and postage expenses) incurred by the administrative agent, custodian, paying agent, registrar and transfer agent and any custody charges of banks and financial institutions to which custody of assets of a Sub-Fund is entrusted, will be borne by the relevant Sub-Fund.

In addition, the Management Company in consideration for the administrative agent services is entitled to an administration fee, up to a maximum of 0.35% p.a., out of the net assets of the relevant Sub-Fund payable at the end of the month. For relevant Sub-Fund and based on service agreements the Management Company is entitled to a minimum fee for administrative agent services.

Furthermore, the Management Company receives customary fees for the domiciliary and corporate services rendered to the Fund.

Note 3 - Taxe d'abonnement

In accordance with the regulations, the Fund is subject to an annual "taxe d'abonnement" at a rate of 0.05% for non-institutional classes of units, 0.01% for institutional classes of units, payable quarterly on the basis of the net assets of the Fund.

Pursuant to Article 175 (a) of the amended Law of 17 December 2010 the net assets invested in UCIs already subject to the "taxe d'abonnement" are exempt from this tax.

INCOMETRIC FUND

Notes to the Financial Statements for the year ended December 31, 2022 (continued)

Note 4 - Management fees

The Management Company is entitled to a management fee out of the Net Assets of the relevant Sub-Fund payable at the end of each quarter. Such fee is established as follows:

Note 14 - Distribution of dividends

The Board of Directors of the Management Company declared for the Sub-Fund INCOMETRIC FUND - ACCI Dynamic - Global Fixed Income Opportunities the following distributions of income on unit Class D2:

Record date	Payment date	Dividend per unit (in USD)	Amount (in USD)
31-03-22	07-04-22	1.77	242,657.79
30-09-22	07-10-22	1.54	193,084.09

Note 15 - Subsequent events

The Sub-Funds INCOMETRIC FUND – Cartago US Income (in liquidation), INCOMETRIC FUND – Deep Mind Strategic Fund (in liquidation) and INCOMETRIC FUND – Tressis Stable Return (previously Stable Return) (in liquidation) have been put into liquidation on February 23, 2023 and the Sub-Fund INCOMETRIC FUND – Gesconsult Flexible Equity (in liquidation) has been put into liquidation on March 28, 2023. No additional liquidation cost accrual was required for these Sub-Funds except for the Sub-Fund INCOMETRIC FUND – Tressis Stable Return (previously Stable Return) (in liquidation) where estimated USD 45,295.47 is accrued as liquidation cost. The amount is accrued in Statement of Operations and changes in net assets under Depositary fees and safekeeping fees, Transfer Agent and other related fees, Audit fees, Administration fees and Other expenses and considered in the Statement of net assets in Other payables/liabilities of the Sub-Fund as at 31 December 2022.

Note 16 - Significant events

On February 24th 2022, Russia invaded Ukraine, surprising the world with a full scale assault of a sovereign country. Financial markets reacted significantly to this event while the war severely disrupted supply chains, but also commodity markets and more specifically energy and agricultural prices. Since the situation still continues to exist, the war is still to be considered as significant event. The Managers have been carefully monitoring the situation since the beginning of the war, screening the portfolio for any impact on individual investments including the effect of Western sanctions.

Remuneration Policy

The Management Company established a remuneration policy that is compatible with a sound and efficient management of risks, that encourages such management, and which does not encourage excessive risk-taking which would be inconsistent with the risk profiles, rules or instruments of incorporation of the Funds.

The remuneration policy is aligned with the business strategy, objectives, values and the interests of the Management Company, of the Funds and of the investors in such Funds; and includes measures to avoid conflict of interests.

The remuneration policy and practice applies to those categories of employees, including senior management, risk takers, control functions and any employee receiving total remuneration that falls within the remuneration bracket of senior management and risk takers whose professional activities have a material impact on the risk profiles of the management companies or of the Funds that they manage.

The below represents the total fixed and variable remuneration of the staff of the Management Company attributable to all the Funds it manages, taking into account UCITS and non-UCITS; as well as the figures proportionate to the total net assets of the Fund for the year ending 31 December 2022:

INCOMETRIC FUND:

	Total for the Management Company	Proportionally to the assets of the Fund
Fixed remunerations	3,563,643	311,125
Variable remunerations	0	0
Number of beneficiaries (average headcount)	51	4.45
Amount paid directly by the Fund	0	0

The below represents the total fixed and variable remuneration of the staff of the Management Company attributable to all the Funds it manages, taking into account UCITS and non-UCITS; as well as the figures proportionate to the total net assets of the Fund:

The below represents the aggregate amount of remuneration broken down by executive and identified staff, whose actions have a material impact on the risk profile of the Funds, taking into account UCITS and non-UCITS; as well as the figures proportionate to the total net assets of the Fund as at 31 December 2022:

INCOMETRIC FUND:

	Total for the Management Company	Proportionally to the assets of the Fund
Remuneration of management	852,861	74,459
Identified staff	968,277	84,536

The fixed element represents a sufficiently large proportion of the total remuneration and allows the Management Company to operate a completely flexible bonus policy, including the possibility to pay no variable remuneration component. No remuneration includes a variable element commitment. Bonuses were awarded by combining the evaluation of each employee's own performance based on non-financial criteria with that of the relevant operational department concerned and the results of the Management Company.

The Board of Directors establishes the general principles governing the Management Company's remuneration policy and supervises its implementation. This process is governed by the non-executive directors. In establishing this policy, the Board of Directors of the Management Company takes into account all elements pertaining to the Management Company's strategy, the risk-taking strategy, and the nature, scale and complexity of the activities. The Board of Directors of the Management Company is reviewing the remuneration policy on a yearly basis.

INCOMETRIC FUND

Unaudited appendix (continued)

The implementation of this remuneration policy is subject, at least once a year, to an internal, centralised and independent analysis by control functions (primarily by the Compliance Officer), in order to verify compliance with the policies and procedures established by the Board of Directors.

The Remuneration Policy was updated in March 2021 in compliance with the Law of May 10th 2016 and with the EU Directive 2014/914/UE. It is available on the website of the Management Company.

Risk Transparency

For all the Sub-Funds of the INCOMETRIC FUND, except for the Sub-Funds INCOMETRIC FUND - ATHOS (LF) Global Navigator and INCOMETRIC FUND – GFED AEQUITAS, the Management Company has decided to use the “Commitment Approach” for the calculation of the global exposure in accordance with CSSF Regulation 10-4; CSSF Circular 11/512 as amended by the CSSF Circular 18/698 and ESMA Guideline 10-788.

For the Sub-Fund INCOMETRIC FUND - ATHOS (LF) Global Navigator and INCOMETRIC FUND – GFED AEQUITAS the Management Company has decided to use the VaR approach (Absolute VaR option).

The following table provides the information required as per CSSF Circular 11/512 as amended by the CSSF Circular 18/698.

VaR						
Sub-Funds	Calculation Method and Limit	Date Max VaR	Max VaR	Date Min VaR	Min	Average
INCOMETRIC FUND – ATHOS (LF) Global Navigator	Absolute VaR max 18%	13/10/2022	8,83%	17/01/2022	1,88%	4,10%
INCOMETRIC FUND – GFED AEQUITAS	Absolute VaR max 20%	07/11/2022	3,18%	29/12/2022	1,18%	1,38%
Leverage (Commitment)						
Sub-Funds	Max Leverage	Min Leverage	Average Leverage	Expected Leverage		
INCOMETRIC FUND – ATHOS (LF) Global Navigator	398,54%	95,66%	249,59%	75%		
INCOMETRIC FUND – GFED AEQUITAS	92,53%	0,00%	64,73%	< 400%		

General Comments of VaR model:

ADEPA uses in the VaR model the calculation standards mentioned in ESMA Guidelines Box 15:

- Historical simulation model
- one-tailed confidence interval of 99 %;
- holding period equivalent to 1 month (20 business days);
- effective observation period (history) of risk factors of at least 1 year (250 business days) unless a shorter observation period is justified by a significant increase in price volatility (for instance extreme market conditions);
- quarterly data set updates, or more frequent when market prices are subject to material changes; and
- at least daily calculation.

The calculated VaR should be lower or equal to 20% of the Net Asset Value.

Classification in Accordance with (EU) 2019/2088

The Fund constitutes a product in Accordance with Article 6 of the Regulation (EU) 2019/2088 (Regulation on sustainability-related disclosures in the financial sector).

Explanation in Accordance with Article 7 of the Regulation (EU) 2020/852 as from 18 June 2020 (Taxonomy):
